

CASSERI PER BALCONI

(utilizzabili anche per frontalini di cornicioni)

Nelle pagine che seguono sono riportati alcuni esempi di modelli che produciamo standard su ordinazione.

Su richiesta sono solitamente possibili una vasta gamma di modifiche sia alle proporzioni , che modifiche estetiche sostanziali.

Tutti i modelli si possono avere sia nella versione monouso che rivestiti con pvc antiaderente.

 <p>Technical drawing of profile 01. The cross-section on the left is filled with a red dotted pattern and has dimensions: top width 4.0, height 20.0, and bottom width 15.0. The profile on the right shows a top flange, a curved bottom edge, and a base flange.</p>	01
 <p>Technical drawing of profile 02. The cross-section on the left is filled with a red dotted pattern and has dimensions: top width 4.0, height 24.0, and bottom width 17.0. The profile on the right shows a top flange, a curved bottom edge, and a base flange.</p>	02
 <p>Technical drawing of profile 03. The cross-section on the left is filled with a red dotted pattern and has dimensions: top width 4.0, height 28.0, and bottom width 20.5. The profile on the right shows a top flange, a curved bottom edge, and a base flange.</p>	03
 <p>Technical drawing of profile 04. The cross-section on the left is filled with a red dotted pattern and has dimensions: top width 4.0, height 24.0, and bottom width 24.5. The profile on the right shows a top flange, a curved bottom edge, and a base flange.</p>	04
 <p>Technical drawing of profile 05. The cross-section on the left is filled with a red dotted pattern and has dimensions: top width 4.0, height 24.0, and bottom width 21.0. The profile on the right shows a top flange, a curved bottom edge, and a base flange.</p>	05
